Flush-mounting domestic range

PLAYBUS RANGE

### PLAYBUS AND THE DOMOTICA

A wide selection of functions for meeting all control, safety, comfort, entertainment and service needs in the residential and service industry sectors.

### PLAYBUS YOUNG

14 colours, modern or classic lines, glossy or satin finishes. Polymer is used to assure total safety of the electrical insulation and so that the colours and finishes will be longlasting.

PLAYBUS RANGE

### PLAYBUS

Electronics that are constantly kept up-to-date with the latest generation technological solutions. New highly reliable components, use of microprocessors and direct 230 V power supply, without using external transformers.

## CHARACTERISTICS AND ADVANTAGES

### COMFORT

#### ◀ CLIMATE CONTROL

Electronic timed thermostat and electronic thermostat provided with liquid crystal displays, which can be connected to an external probe.

#### ELECTRONIC LIGHT REGULATORS (DIMMERS) ▶

#### ▶ INFRARED REMOTE CONTROL

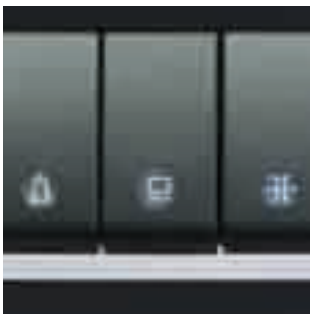

#### ◀ STEREO SPEAKER SYSTEM

Permits connection of 2 external audio sources and is complete with FM tuner (playbus module) and intercom for sending voice messages.

### CONTROL

#### ◀ MORE THAN 40 INTERCHANGEABLE PUSH-BUTTONS WITH SYMBOL

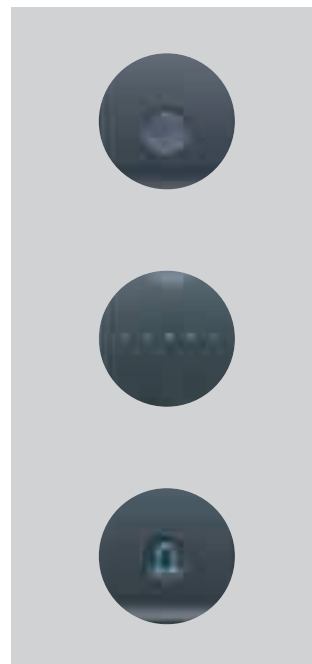

MORE THAN 80 ARTICLES FOR USER CONTROL ▶

#### ▶ THREE TYPES OF BACKLIGHTING:

- Functional (visible also during the day)
- Night-time location (moderate lighting)
- Iconographic (with customisable symbol)

FLUSH-MOUNTING DOMESTIC RANGE

GEWISS

## CHARACTERISTICS AND ADVANTAGES

### SAFETY

#### ACCESS/SERVICE CONTROL SYSTEM

Two integrable systems that permit access control or services management through cards with microchips.

#### GAS AND WATER LEAKS DETECTION SYSTEM

Active defence with 5 electronic detectors for: the presence of natural gas, LPG gas, smoke and water.

#### BUS BURGLAR ALARM SYSTEM

With simplified wiring (only two wires), with 26 zones that can be partialized and up to 32 controllable devices.

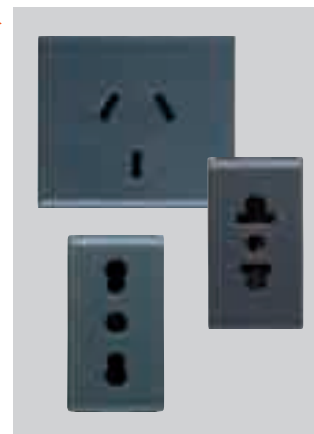

PLAYBUS RANGE

### POWER TAKE-OFF AND SIGNAL

#### HIGH PERFORMANCE CONNECTORS FOR INFORMATION TECHNOLOGY AND MULTIMEDIA DEVICES

#### MORE THAN 20 ITALIAN AND INTERNATIONAL STANDARD SOCKET-OUTLETS

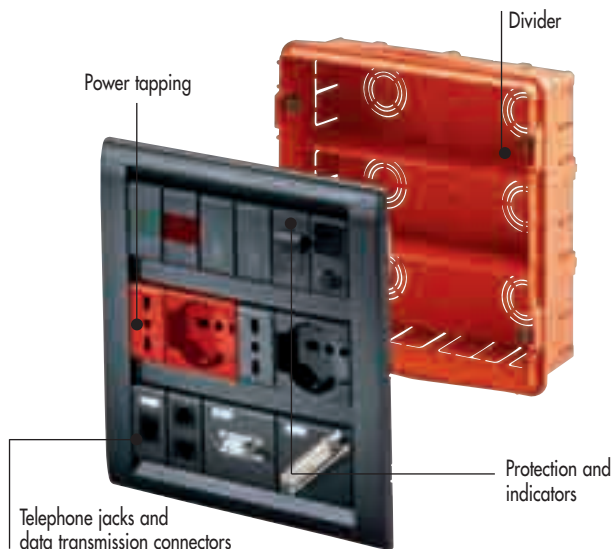

COLOURED SOCKET-OUTLETS FOR DEDICATED LINES

### INSTALLATION FLEXIBILITY

With PLAYBUS you will be able to control several socket-outlets and several lines from just one point thanks to the high-capacity plates that hold up to 18 modules with internal circuit separation.

Moreover, its high degree of flexibility is guaranteed by the wide range of application accessories and by the integration with the GEWISS trunking system.

### CUSTOMIZED PLATES AND DEVICES

#### CUSTOMIZED PLATES

GEWISS, from a customer service viewpoint, offers the opportunity to customize PLAYBUS plates with a pad printing process that permits lettering, trademarks and logos of any kind to be reproduced. This process ensures faithful reproduction and indelibility over time while keeping the surface features of the plate unaltered.

This service therefore makes it possible to offer a prestigious product, which is the result of the combination of GEWISS design and the customer's "signature".  
**Call the GEWISS Sales Organisation for a quotation.**

#### MONOCHROMATIC PAD PRINTING

Possible positions

Examples:

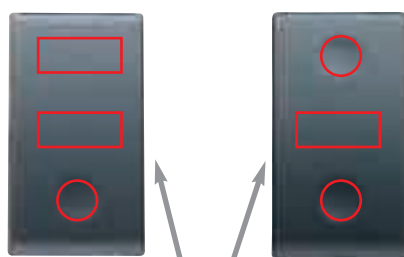

PLAYBUS RANGE

#### CUSTOMISED DEVICES

To permit accurate and detailed identification of the functions of the devices installed in the system, GEWISS offers interchangeable buttons and/or blanking modules pad-printed with symbols and lettering. In this case, it is possible to utilise one or more standard GEWISS symbols shown in the table, or others the customer requires. This operation is possible on all blanking modules and on codes GW 30 041 and GW 30 056 that may then replace the button of any control device.

**Call the GEWISS Sales Organisation for a quotation.**

### COLOUR MATCHING DECORATIVE CONTROL UNITS WITH PLAYBUS PLATES

COORDINATED ENCLOSURE COULD WHITE

▶ PLAYBUS also gives aesthetic integration with the apartment control unit, another essential component of residential electrical systems. The colour range offered by PLAYBUS plates is then offered in the range of co-ordinated modular enclosures with 12 and 24 modules shown in this catalogue.

The result of this combination is perfect harmony of colours and shapes among GEWISS components. This therefore provides an opportunity for optimum aesthetic integration of all the components of the electrical system with the furnishing elements.
