TIES IN PA 66 FOR HEAVY DUTY USES

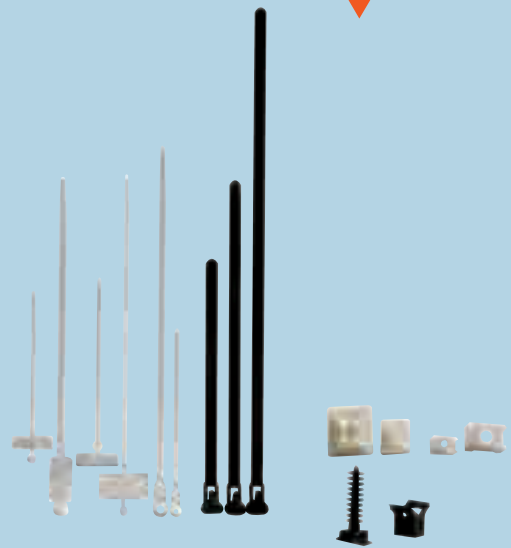

STANDARD TIES FOR CABLING

NEW RANGE OF L.T.R. TIES IN PA 12 FOR EXTERNAL APPLICATIONS

REOPENABLE TIES FOR TEMPORARY FIXING

TIES WITH EYELET

APPLICATIONS

INDUSTRIAL AUTOMATION AND DISTRIBUTION BOARDS

When cabling and attaching conductors to electrical boards, standard, heavy-duty and tagged ties are used.

TEMPORARY SYSTEMS

On film sets, in theatres and on stage, reopening ties are used for the temporary fixing of cables and other objects.

CONSTRUCTION SITES

Outdoor electrical connections imply exposure to dust and low temperatures. This requires the use of L.T.R. type ties for secure fixing of equipment and cables.

CHARACTERISTICS AND ADVANTAGES

CABLE TIES

EXTENT OF RANGE

- Standard type
- For heavy duty use
- Reopenable
- With eyelet

COMPACT HEAD PROFILE

Reduces overall dimensions and makes insertion and hold easy.

ANGLED END
